General Comment

Wildfires in calif must stop.... over Billion dollars in tax payer COST ,bad for budge, bad for wildlife, lives lost, time to tend your garden... Investigate and review policy of Environmentalist activists which seem to be causing more harm then good. REPORT 2007 said California wildfires pumped nearly 8 million metric tons of climate-warming carbon dioxide into the atmosphere; 2017 fire worse..... REPORT: from Scientists study estimated that Fires in US release millions metric tons of carbon dioxide per year; REPORT "Forest fires may produce as much co2 as half of all fossil-fuels burned . We have a clear and present danger of high-intensity fires on public lands in California , fuels buildup to unnatural levels ... Misguided Obama policy Suppress of Wildfire and Unwise ideas of environmentalist give too much power where environmental analyses were 60% of the costs .Manage forest BEFORE they start...OCT 2017 The Wildfire Prevention and Mitigation Act of 2017 will simplify forest management to help prevent & mitigate wildfires and protect wildlife by greatest threat to many endangered species and their habitat is catastrophic WILDFIRE ,leads to susceptible to insects and disease outbreaks ...MUST do thinning forest to protect habitat and more resistant to insect predation. concentration of trees and underbrush amounts to 45 tons of dry fuel per acre, potential for catastrophic fire.....2017 Mr Secretary Zinke accumulation and thickening of vegetation exacerbates fuel conditions and often leads to larger and higher-intensity fires,".. ... We Do Not Have A Fire Problem On Our Nation's Forests; We Have A Land Management Problem" Agencies need to review or change or appeal forest rules that are subject to NEPA and ESA and other federal regulations. Agency need to review update or repeal The law guiding Federal,

AB86-COMM-83

State Forest , BIA and tribal management of forests. Need to update or repeal the Equal Access to Justice Act (EAJA) of 1980 , subsection of EAJA, codified at 28 U.S.C. 2412(d) section 2412(b).

Wildfire Ozone regulations compliance costs could measure in the trillions of dollars for California. Forest Service needs support to cut and sell timber, to get the old growth under control.

inability of the Forest Service to thin forests due to overly cumbersome and lengthy environmental processes, increasing frivolous lawsuits filed by certain litigious environmental groups, and a lack of sufficient agency focus on this challenge has led to nearly 60 million acres that are at high risk of deadly and catastrophic forest fires that endanger communities, hurt local economies, destroy land and water quality and release massive amounts of emissions into the atmosphere. Why did the past admin. leave out wildfires in the studies of harmful Emissions??
