MEMORANDUM FOR PATRICIA W. SILVEY

Deputy Assistant Secretary for
Mine Safety and Health Administration

THROUGH:

[REDACTED]
TIMOTHY R. WATKINS
Administrator for
Mine Safety and Health Enforcement

FROM:

[REDACTED]
THOMAS W. CHARBONEAU
Director, Office of Assessments

SUBJECT:

Mine Safety and Health Administration (MSHA)
Accountability Division Review
Beckley District and [REDACTED]
[REDACTED]

Introduction

This memorandum summarizes the Accountability Division's review of the Beckley District and the [REDACTED]. The review focused on enforcement activities at the [REDACTED] however this District has inspection oversight for both coal and metal and nonmetal mines. The review also included evaluation of District and Field Office field activities, level of enforcement, and MSHA supervisory and managerial oversight activities.

Purpose

The purpose of this accountability review was to determine whether MSHA enforcement policies, procedures and guidance were being followed consistently and to assess whether mission critical enforcement activities were accomplished.

Overview

Accountability Division Specialist Mark Odum conducted the review in [REDACTED] in accordance with the annual accountability review plan schedule and to measure the effectiveness of cross-trained inspectors as part of the “One MSHA” initiative. The review focused on a Regular Safety and Health Inspection (E01) at the [REDACTED] Event No. [REDACTED] completed in [REDACTED]. The review also included other areas of District and Field Office oversight as identified in the attached Accountability Division checklist (Attachment A). Due to travel restrictions resulting from the March 2020 National Emergency Declaration, the site visit portion of the review could not be performed.

Mine Site Information

The mine is a [REDACTED] mining operation located in [REDACTED]. It employs approximately [REDACTED] employees working one eight-hour shift per day, five days a week. The material is drilled, blasted, and transported by trucks to an on-site processing facility.

Review Results

The [REDACTED] had historically inspected coal operations, however, under the “One MSHA” initiative, the office acquired responsibilities to inspect metal and nonmetal operations. The inspectorate was cross-trained to inspect the metal and nonmetal properties. In December 2019, the inspection procedures handbooks for metal and nonmetal and coal mines were combined into one handbook, Mine Safety and Health Enforcement General Inspection Procedures Handbook, PH19-IV/V-1, December 2019 (GIPH).

For the E01 reviewed, the inspectors documented the inspection according to the GIPH. The inspectors issued a total of six enforcement actions during the inspection. The [REDACTED] Supervisor had traveled to the site during the quarter and observed conditions at the mine.

Positive findings for this review included:

- Inspectors documented with detail the inspected areas and equipment.
- Inspectors documented observations of mining cycles and work practices.
- Inspectors documented health and safety discussions with miners.
- Inspectors documented inspections of contractors encountered.
- Inspectors used checklists to aid in the documentation of the inspection.
- This review did not identify any issues that required a corrective action plan.

Based on the review of the E01 inspection report, Event No. [REDACTED] and discussions with District management, the enforcement levels appeared to be appropriate for the mine.

Attachment A - Accountability Division Checklist

Some questions may not be applicable to the particular mine site or office and would not be a part of this review.

Questions 1-16 apply to the regular mine inspection report reviewed and the mine site visit.

Question Number	Question	Answer
Question 1	Determine if complete and thorough E01 inspections are being conducted and/or if policy and procedures were properly followed.	Adequate – Yes Corrective Action Needed – No Comments – None
Question 2	Determine if documentation for inspections are documented according to inspection procedures.	Adequate – Yes Corrective Action Needed – No Comments – None
Question 3	Determine if citations and orders issued during previous inspections were properly evaluated for gravity, negligence, level of enforcement, number of persons affected, and supported by documentation.	Adequate – Yes Corrective Action Needed – No Comments – None
Question 4	Evaluate examination of required record books and postings for compliance with applicable standards.	Adequate – Yes Corrective Action Needed – No Comments –None
Question 5	Evaluate examination of the required mine maps.	Adequate – Not Applicable Corrective Action Needed – No Comments – This item does not apply to the mine reviewed.
Question 6	Evaluate the observation of the mining cycle and conditions in the active working area during the review.	Adequate – Yes Corrective Action Needed – No Comments – None

District	Beckley	Field Office		Mine ID		Date	
----------	---------	--------------	--	---------	--	------	--

Question Number	Question	Answer
Question 7	Evaluate the air quantity, quality, and gas checks during the review.	Adequate – Not applicable Corrective Action Needed – No Comments – This item does not apply to the mine reviewed.
Question 8	Evaluate the examination of electrical equipment, transformer stations, and/or electrical circuits.	Adequate – Yes Corrective Action Needed – No Comments –None
Question 9	Evaluate examination for permissibility during the review.	Adequate – Not applicable Corrective Action Needed – No Comments – This item does not apply to the mine reviewed.
Question 10	Determine if E01 inspections include examinations of the conveyor belts, belt drives, belt entries.	Adequate – Yes Corrective Action Needed – No Comments – None
Question 11	Evaluate, during the review, the inspection of at least one set of seals, including methods for obtaining samples from sealed area.	Adequate – Not applicable Corrective Action Needed – No Comments – This item does not apply to the mine reviewed.
Question 12	Determine if close-out discussions are being conducted.	Adequate – Yes Corrective Action Needed – No Comments - None

Mine Safety and Health Administration
Accountability Division

District	Beckley	Field Office		Mine ID		Date	
----------	---------	--------------	--	---------	--	------	--

Question Number	Question	Answer
Question 13	Determine, for coal mines only, after an in-mine visit, if approved plans (Ventilation, Roof Control, Emergency Response Plan (ERP), etc.) are compatible with mining conditions and equipment.	Adequate – Not Applicable Corrective Action Needed – No Comments – This item does not apply to the mine reviewed.
Question 14	Determine if a proper examination of the Atmospheric Monitoring System (AMS) and Automatic Fire Sensor and Warning Device is being conducted.	Adequate – Not applicable Corrective Action Needed – No Comments – This item does not apply to the mine reviewed.
Question 15	Determine if proper procedures for conducting, documenting, and reviewing MSHA health inspections are being followed.	Adequate – Yes Corrective Action Needed – No Comments – None
Question 16	Evaluate the overall condition of the mine relative to the level of enforcement documented in previously completed inspections.	Adequate – Yes Corrective Action Needed – No Comments – None

Questions 17-35 apply to Field Office and District specific items.

Question Number	Question	Answer
Question 17	Determine if inspectors have sufficient equipment and supplies to conduct thorough inspections.	Adequate – Yes Corrective Action Needed – No Comments – None

Question Number	Question	Answer
Question 18	Determine if inspectors have an understanding of when a violation of Section 103(a) for Advance Notice occurs and whether appropriate citations are issued for Advance Notice.	Adequate – Yes Corrective Action Needed – No Comments - None
Question 19	Determine if the District Manager has made a determination to initiate or decline investigation within 30 calendar days for Possible Knowing/Willful (PKW) Reviews.	<div style="background-color: black; width: 100px; height: 15px;"></div> <div style="background-color: black; width: 150px; height: 15px;"></div> <div style="background-color: black; width: 100px; height: 15px;"></div>
Question 20	Evaluate 103(i) spot inspection (E02) reports for the office/district being reviewed for compliance with agency policies and procedures.	Adequate – Yes Corrective Action Needed – No Comments – None
Question 21	Determine if Hazard Complaint inspections/investigations are being conducted according to policy and procedures.	Adequate – Yes Corrective Action Needed – No Comments – None
Question 22	Determine if supervisors are monitoring inspector time and activity to ensure proper use of time, including off-shift and weekend work, by all inspectors.	Adequate – Yes Corrective Action Needed – No Comments – None
Question 23	Determine if required supervisory accompanied activities and office reviews are being conducted and documented according to agency policy and procedures.	Adequate – Yes Corrective Action Needed – No Comments – None
Question 24	Determine if a 104(d) tracking system is in place and being kept current at the office being reviewed.	Adequate – Yes Corrective Action Needed – No Comments – None
