MEMORANDUM FOR PATRICIA W. SILVEY

Deputy Assistant Secretary for
Mine Safety and Health Administration

[REDACTED]

THROUGH:

TIMOTHY R. WATKINS
Administrator for
Mine Safety and Health Enforcement

[REDACTED]

FROM:

THOMAS W. CHARBONEAU
Director, Office of Assessments

SUBJECT:

Mine Safety and Health Administration (MSHA)
Accountability Division Review
Vincennes District and

[REDACTED]

Introduction

This memorandum summarizes the Accountability Division's review of the Vincennes District and [REDACTED]. The Field Office had historically inspected coal operations, however, under the "One MSHA" initiative, the office acquired responsibilities to inspect metal and nonmetal operations. The inspectorate was cross-trained to inspect the metal and nonmetal properties. The review focused on enforcement activities at the [REDACTED]. The review also included evaluation of District and Field Office activities, level of enforcement, and MSHA supervisory and managerial oversight activities.

Purpose

The purpose of this accountability review was to determine whether MSHA enforcement policies, procedures, and guidance were being followed consistently and to assess whether mission critical enforcement activities were accomplished.

Overview

Accountability Division Specialist Mark Odum conducted the review in [REDACTED] in accordance with the annual accountability review plan schedule. The review focused on Regular Safety and Health Inspections (E01) at [REDACTED], Event Nos. [REDACTED] ([REDACTED]) and [REDACTED]. The review also included areas of District and Field Office oversight as identified in the attached Accountability Division checklist (Attachment A). Due to travel restrictions resulting from the March 2020 National Emergency declaration, the site visit portion of the review could not be performed.

Mine Site Information

The mine is a [REDACTED] located in [REDACTED], employing [REDACTED] employees. The mine works one ten-hour production shift per day, five days a week, utilizing open pit, multi-bench mining methods. After drilling and blasting, the [REDACTED] is sent through a crusher then prepared for transportation to customers.

Review Results

For the E01 inspection reports reviewed, the inspectors documented complete inspections of the [REDACTED] site according to the Mine Safety and Health Enforcement General Inspection Procedures Handbook, December, 2019.

Based on the review of the E01 inspection reports, Event Nos. [REDACTED] and [REDACTED], and discussions with the Field Office and District management, enforcement appeared to be appropriate for the mine. This review did not identify any issues requiring a corrective action plan.

Attachment A - Accountability Division Checklist

Some questions may not be applicable to the particular mine site or office and would not be a part of this review.

Questions 1-16 apply to the regular mine inspection report reviewed and the mine site visit.

Question Number	Question	Answer
Question 1	Determine if complete and thorough E01 inspections are being conducted and/or if policy and procedures were properly followed.	Adequate – Yes Corrective Action Needed – No Comments – None
Question 2	Determine if documentation for inspections are documented according to inspection procedures.	Adequate – Yes Corrective Action Needed – No Comments – None
Question 3	Determine if citations and orders issued during previous inspections were properly evaluated for gravity, negligence, level of enforcement, number of persons affected, and supported by documentation.	Adequate – Yes Corrective Action Needed – No Comments – None
Question 4	Evaluate examination of required record books and postings for compliance with applicable standards.	Adequate – Yes Corrective Action Needed – No Comments –None
Question 5	Evaluate examination of the required mine maps.	Adequate – Not Applicable Corrective Action Needed – No Comments –This item does not apply to the mine reviewed.

Question Number	Question	Answer
Question 11	Evaluate, during the review, the inspection of at least one set of seals, including methods for obtaining samples from sealed area.	Adequate – Not applicable Corrective Action Needed – No Comments – This item does not apply to the mine reviewed.
Question 12	Determine if close-out discussions are being conducted.	Adequate – Yes Corrective Action Needed – No Comments - None
Question 13	Determine for coal mines only, after an in-mine visit, if approved plans (Ventilation, Roof Control, Emergency Response Plan (ERP), etc.) are compatible with mining conditions and equipment.	Adequate – Not applicable Corrective Action Needed – No Comments – This item does not apply to the mine reviewed.
Question 14	Determine if a proper examination of the Atmospheric Monitoring System (AMS) and Automatic Fire Sensor and Warning Device is being conducted.	Adequate – Not Applicable Corrective Action Needed – No Comments – This item does not apply to the mine reviewed.
Question 15	Determine if proper procedures for conducting, documenting, and reviewing MSHA health inspections are being followed.	Adequate – Not Applicable Corrective Action Needed – No Comments – No health samples collected during the inspection reviewed.
Question 16	Evaluate the overall condition of the mine relative to the level of enforcement documented in previously completed inspections.	Adequate – Yes Corrective Action Needed – No Comments - None
