

## **ELECTRICAL QUALIFICATION**

The MSHA District 8 office will be offering the electrical test for qualified applicants on an as needed basis:

The Electrical Qualification Application should be provided prior to the day of the test. Pens, pencils, and paper will be furnished. No material or electronic devices will be allowed on your person during the test except for a non-programmable calculator. Some reference material will be provided (i.e. NEC tables and electrical formulas). You will be required to show your driver's license when you check in at the window upon arrival.

Be sure to go online and complete the electrical qualification application and bring it with you.
