Date: 09.28.09

1. Unexpected due to the low volume of the leak and the intake fans have C18 sensors in it to give an early warning.

2. The air pressure in the best entry of the 1/1/1 section best is greater than Station #35700 then in the intake entry. There is a set of air lock doors constructed at this location and air from the best entry is leaking into the intake when checked with smoke tube.

3. Location 35700 station 1/1/1.

4. Weekly examiner should have known.

5. For some time longer than this shift.

6. Persons worked in by this location.
