Supervisor's Initials and Date

Who knew the violation existed? The section foreman knew. He told me it was there at the beginning of the shift.

How long has the violation existed? Since the beginning of the shift.

If an accident should occur because of this type violation, how serious would it be?

Permanently disabling, from injured person not being able to travel through the rib roll, and resulting in a more serious injury.

What is the likelihood that this type accident will occur at this mine?

Unlikely, because no other hazard was found at the time, to result in an accident.
