Nevada Surface Operations Safety Journey Talking Safety Overview

“When you’re talking safety, you’re thinking safety”

Carlin Surface Operations – Talking Safety

Talking Safety: Before and After

SUGGESTION #023

Suggest that standing platforms be installed on the 992G Model Mill 5 and 6 loaders so the operators will have a safe place to stand while cleaning the front windows.

As suggested, standing platforms were fabricated by Welder Kevin Wells and placed on 992G Model Mill loaders 038, 039 and 040. Photos of these platforms have been sent to other Newmont areas for their use.

Talking Safety: Before and After

SUGGESTION #086

Suggest that fire extinguishers on the D model haul trucks and some of the C models, be moved to a location in which they can be used by operators to safely escape a fire.

As of Nov 10, 2008 all haul truck fire extinguishers have been moved to a new location next to the operator cab providing quicker and safer access, as suggested.

Talking Safety: Before and After

SUGGESTION #548

Suggest that we ensure the water cannons on the water trucks are usable for fires. When the operator turns the cannons on to test them they break because they are frozen. We need to be able to keep them from freezing.

As suggested, a new water cannon drainage system utilizing double valves for automatic draining has been designed by maintenance engineering. The new systems are being installed on all our water trucks. Water trucks 102, 29 and 99 have been completed and successfully tested to work as designed.

WHY SAFETY IS IMPORTANT

MARSHAL YORK

ROY THOMPSON

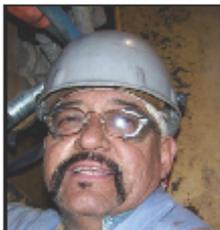

JOSE MARTINEZ

CLINT GREEN

JOHN CHRISTENSEN

RAMON LOPEZ SR.

KAYE ALLEN

HENRY HART

Marshal York Super Shop foreman — I have six reasons at home to stay safe, my wife, and my five children. Everyone has someone that wants them to go home safe.

Roy Thompson Gas Shop 1 — Safety is important, we are all here to provide for our families and live a good quality of life.

Jose Martinez Truck Shop 4 — I have people at home that want to see me the same way as when I left for work.

Clint Green Truck Shop 4 — Safety is important so I can make it home safe to my family.

John Christensen Truck Shop 4 — Safety is important, I have 2 beautiful girls, my handsome son and my lovely wife.

Ramon Lopez Super Shop — Safety is important because we all want to see our families.

Kaye Allen Super Shop — We are out here as much as we are home, so I treat work like my house; keeping it safe for everyone because these guys are like family.

Brian Bieber Super Shop — Safety is important because injuries are no fun.

Kevin Smith Super Shop — Safety is important because I want to go home in one piece every night.

James Russell Super Shop — Safety is important because I have two little boys that depend on me, and want me home every night.

Kristina Moore Super Shop — Safety is important so I can go home to my family.

Henry Hart Parts Expeditor — Safety is a mind set. Everyone should take responsibility. Safety should be of the primary importance. Safety & cleanliness go hand in hand.

Bill Millage Tire Shop — Safety is important, I want to go home, to see my family.

Shawn McPhie Planner — As long as I'm safe everyone around me is safe, and we can go home to our families.
