## General Comment

If you receive more than \$2,499,000 with this fee increase, 2 questions/comments;

(1). Why increase the fees if you are going to be taking in more than you can legally retain,

(2) Give the extra money back to the mining community; i.e. State Mine Inspector.

It seems to me the government just wants to charge more money because it can. And crediting the money to the Treasury general fund is a waste, as they seem to squander the taxpayers money anyway.
