**Subject:** MSHA Rule RIN 1219-AB87 work place exams

Patricia W. Silvey,

On behalf of J. Davidson & Sons Construction Company, we are formally requesting the Mine Safety and Health Administration delay the work place exam rule. In order for our company to successfully adapt to the rule, we are requesting the rule be delayed to year 2018. Changing our current procedures will require new training, revising documents, extra expense and ultimately resources and time. We appreciate you considering our request.
