Dust Retrospective Study

Comment On: MSHA-2018-0014-0001
Retrospective Study of Respirable Coal Mine Dust Rule

Document: MSHA-2018-0014-0005
Comment from David Young, NA

Submitter Information

Name: David Young
Organization: NA

General Comment

MSHA should make certain all miners, especially coal miners, wear a NIOSH-approved, fit-tested respirator at all times when in areas, such as underground coal mines and open air coal mines, where coal dust is know to be present.
