General Comment

Mining is a small part of my business. I have more than 6 people trained to work in the mine if I need someone to replace another worker. I don't have 6 working in a mine at one time. I usually have 2 working in the mine. I don't want any more of this unnecessary regulation and paper work. I hope I'm excluded. I don't believe paperwork saves a single life. This is not needed anyway, as the equipment is inspected every single year by MSHA.
