To Whom It May Concern:

I will always and forever be a #FriendOfMountainsAndMiners.

I support the proposed federal regulatory change around silica dust limits. Additionally, I think that MSHA should ensure monitoring and enforcement mechanisms are strengthened, as well as make sure that all coal companies are required to provide a mask with a HEPA-filter to every worker on all deep mine and surface mine operations.

Thank you for your time and consideration.

Sincerely,  
Dr. Colleen Unroe
