Docket: MSHA-2023-0001

Lowering Miners' Exposure to Respirable Crystalline Silica and Improving Respiratory Protection

Comment On: MSHA-2023-0001-0002

Lowering Miners' Exposure: Respirable Crystalline Silica and Improving Respiratory Protection

Document: MSHA-2023-0001-1343

Comment from Snyder, Todd

Submitter Information

Name: Todd Snyder

General Comment

I strongly support the proposed rule and I urge the Mine Safety and Health Administration to specifically require periodic silica dust testing during all phases of a mine's construction and operation, and require mining companies to ventilate their mines or capture or eliminate dust.
