Signs

Good judgment comes from experience and a lot of Accidents come from bad judgment.

- ***SLAM Stop Look Analyze Manage*** every project should begin with a plan that includes discussion on how this type of task had been completed before and any problems that may occur.
- ***Task training is essential*** for any new miners or on new equipment that have not been involved in these types of projects in the past. [46.7](#)
- ***Required signs*** will be strategically placed, maintained and visible at all times. When the hazard no longer exists the sign should be removed.
- ***Danger Signs***, should have **RED** as the predominating color and will be used when an immediate hazard exists. Employees shall be instructed that this type of area has special precautions and restrictions.
