1) Stockpile and Highwall Safety
- Be aware of overhanging material when loading from stockpiles and highwalls
- Stay back from edge and build a berm
- Stay clear of draw points above surge tunnels
- Always scale the highwall back
- Never place yourself between the equipment and the stockpile or highwall

2) Housekeeping
- Applies to all work areas, mobile equipment, and lunch room
- Empty trash containers, as needed, in your work area. Take pride in the appearance of your equipment and workplace.
- Clean up spills immediately and report spillage problems

3) Driving Safety – Backing Up
- Park vehicles so as to avoid backing whenever possible
- Always observe area to insure no one is walking or parked behind you and blow vehicle horn before backing up
- Keep mirrors and windows clean
- Listen for backup alarms on other equipment, report defective alarms
- Make your walk-around examination, before getting into equipment and starting up
