1) Working in Hot Weather
- Drink plenty of water
- If you feel faint or light headed, sit down in a cool/shady area and drink water
- Wear clothing that “breathes” and allows moisture to evaporate

2) Electrical Safety
- Never work on machinery without locking out and tagging out the power source
- Don’t go into electrical switchgear. That’s a job for the electrician
- Replace damaged extension and damaged drop light cords

3) Take a Few Minutes for Safety-General Safety Precautions
- Always take a little time to assess the task at hand and evaluate potential hazards
- Think Before You Act – STOP, SCAN, PLAN
- Always look where you are walking and be aware of your surroundings
- Never walk under a suspended load
- If you see a hazard, alert your supervisor and barricade area
- Always get the proper tools for the job! Before beginning the job, reference maintenance and operating manuals
- Always wear Personal Protective Equipment
