MEMORANDUM FOR PATRICIA W. SILVEY
Deputy Assistant Secretary for Operations
Mine Safety and Health Administration

THROUGH:
KEVIN G. STRICKLIN
Administrator for
Coal Mine Safety and Health

THOMAS W. CHARBONEAU
Acting Director, Office of Assessments, Accountability, Special
Enforcement and Investigations

FROM:
ALFRED L. CLAYBORNE
Deputy Director, Office of Accountability, Special
Enforcement and Investigations

SUBJECT:
MSHA Office of Accountability Review
Coal District 8, Vincennes, Indiana Field Office and

Introduction

This memorandum summarizes the Office of Accountability’s review of the subject
district office, field office, and mine. The review included evaluation of MSHA field
activities; level of enforcement; conditions and practices at the mine; Field Activity
Reviews (FARs); Accompanied Activities (AAs); second level reviews; and MSHA
supervisory and managerial oversight. The accountability review also included
evaluations to determine if there were any deficiencies in areas commonly identified
during Agency internal reviews of MSHA’s actions following past mine disasters.

Positive findings as well as issues requiring attention are included in this accountability
review report.
Overview

Office of Accountability Specialists, Jerry Kissell and Mark Odum, conducted the review of Coal District 8 and the Vincennes, Indiana Field Office from _______. This review focused on inspection activities during FY 2014 (October 2013 through September 2014) and the first quarter of FY 2015 (October 2014 through December 2014). The review focused specifically on documentation of the regular E01 inspection, Event No. _______, conducted by the Vincennes, Indiana Field Office of the _______. The Office of Accountability selected the Vincennes Field Office and the _______ because the mine had an increase in the number of violations issued, including _______ during FY 2014. The _______ is an underground coal mine located in Greene County, Indiana and mined coal from the _______. The status of the mine changed during the time of this review from producing to non-producing. Therefore, as part of this review, on _______ Accountability Specialist Mark Odum conducted a mine visit at the _______ to a different mine also inspected by the Vincennes Field Office. The mine visit focused on general mine conditions; whether conditions at the mine corresponded with enforcement levels; and observations of work practices at the mine site.

Mine Visit

On _______ the Office of Accountability Specialist accompanied the Vincennes Field Office Supervisor, an inspector, and the Assistant District Manager - Enforcement to the _______, Spot inspection (E02). The _______ is an underground coal mine located in _______ which accesses the _______ from a box cut _______. The mine employs about _______ and uses two continuous mining machines with shuttle car haulage on each of three split ventilation sections with two mechanized mining units (MMUs) on each section. The inspection group traveled to the No. 2 active working section, MMUs 003-0 and 004-0. The review included observations of the following: inspections of the No. 2 Section; examinations of the working faces for imminent dangers; methane tests at the faces; air readings; ventilation; rock dusting and cleanup; roof and rib conditions; fire protection; communications; and a check of the No. 3 Joy continuous mining machine methane monitor. The inspector conducted safety, health, and best practice discussions and questioned miners to determine their knowledge and adequacy of training concerning the roof control and ventilation plans. Outby inspections included a portion of the primary escapeway, the refuge alternative; the No. 2 Section belt drive and head transfer area; and the 1st Main West seals. Other observations during the inspection included the travelway/alternate escapeway signage, lifelines, and dates, times, and initials. The on-site review also included observations of the check-in/check-out system, escapeway maps, communication and tracking system, and closeout discussions. No violations were observed during the mine visit.
Review Results

The accountability review revealed positive findings in several areas, including the following:

- Inspectors' notes were descriptive and organized
- Inspectors documented safety talks and discussions with miners on knowledge and training regarding roof control plans and ventilation plans
- Inspectors documented checks of multi-gas detectors
- Inspectors used sample bag numbers on the rock dust tracking map for best tracking capabilities
- The inspector, during the mine visit, recognized miners for good safety practices and work methods and suggested methods for improvement in work practices regarding safety and health
- The used 103(i) spot calendars with color coded blocks for tracking

This accountability review did not reveal any issues that required corrective actions.

## Attachment A: Office of Accountability Checklist

1. Determine if complete and thorough E01 inspections are being conducted and/or if policy and procedures were properly followed.
   - Adequate: X
   - Corrective Action Needed: 
   - Comments Below: 

2. Determine if documentation for inspections is complete and thorough.
   - Adequate: X
   - Corrective Action Needed: 
   - Comments Below: 

3. Determine if citations and orders issued during previous inspections were properly evaluated for gravity, negligence, level of enforcement, number of persons affected, and supported by documentation.
   - Adequate: X
   - Corrective Action Needed: 
   - Comments Below: 

4. Evaluate inspector/specialist examination of required record books and postings for compliance with applicable standards.
   - Adequate: X
   - Corrective Action Needed: 
   - Comments Below: 

5. Evaluate inspector/specialist examination of the operator’s maps (on-site) for accuracy, escapeway locations, etc.
   - Adequate: X
   - Corrective Action Needed: 
   - Comments Below: 

6. Evaluate, upon arrival on the working section, inspector/specialist examination of all working faces for imminent dangers.

12. Evaluate, during the review, the inspection of at least one set of seals, including methods for obtaining samples from sealed area.
   Adequate X  Corrective Action Needed  Comments Below

13. Determine if adequate close-out conferences are being conducted at the end of each inspection.
   Adequate X  Corrective Action Needed  Comments Below

14. Determine if Possible Knowing/Willful (PKW) Forms are documented and processed according to agency policy and procedures.
   Adequate X  Corrective Action Needed  Comments Below

15. Evaluate 103(i) spot inspection (E02) reports for the office/district being reviewed for compliance with agency policies and procedures, including compliance with time frames and separating E02 inspections from other events.
   Adequate X  Corrective Action Needed  Comments Below

16. Determine if Hazard Complaint inspections/investigations are being conducted according to policy and procedures.
   Adequate X  Corrective Action Needed  Comments Below
Determine if supervisors are monitoring inspector time and activity to ensure proper use of time, including off-shift and weekend work, by all inspectors.

Adequate [X]  Corrective Action Needed [ ]  Comments Below [ ]

Determine if required Field Activity Reviews (FARs) and supervisory follow-ups are being conducted and documented according to agency policy and procedures?

Adequate [X]  Corrective Action Needed [ ]  Comments Below [ ]

Determine if Accompanied Activities (AAs) and supervisory follow-ups are being conducted and documented according to agency policy and procedures?

Adequate [X]  Corrective Action Needed [ ]  Comments Below [ ]

Determine if a 104(d) tracking system is in place and being kept current at the office being reviewed.

Adequate [X]  Corrective Action Needed [ ]  Comments Below [ ]

Determine if the Uniform Mine File books are being maintained and reviewed according to current agency policy and procedures.

Adequate [X]  Corrective Action Needed [ ]  Comments Below [ ]

Determine if supervisors are thoroughly reviewing Uniform Mine Files at least annually?

Adequate [X]  Corrective Action Needed [ ]  Comments Below [ ]
23. Determine if supervisors are visiting each active underground mine at least annually.

Adequate ✗ Corrective Action Needed ☐ Comments Below ☐

24. Determine if all sections where retreat mining is occurring (not to include longwall mining) are being inspected at least monthly?

Adequate ✗ Corrective Action Needed ☐ Comments Below ✗

No retreat mining conducted at mines inspected by Vincennes Field Office.

25. Determine if documentation of staff meetings/safety meetings are effective and relevant to current issues and the Agency’s mission.

Adequate ✗ Corrective Action Needed ☐ Comments Below ☐

26. Determine, after an in-mine visit, if approved plans (ventilation, roof control, training, ERP, etc.) are compatible with mining conditions and equipment.

Adequate ✗ Corrective Action Needed ☐ Comments Below ☐

27. Determine if approved plans are being revised or updated to reflect changes in conditions and/or equipment.

Adequate ✗ Corrective Action Needed ☐ Comments Below ☐
Determine if plan reviews are in compliance with current agency policy and procedures (performed within required timeframes, tracked from the date of submission, properly documented, and contain input from all affected departments and field offices).

Adequate ✗ Corrective Action Needed ☐ Comments Below ☐

Determine if Assistant District Manager is conducting the required second level reviews and holding supervisors accountable for oversight of Field Activity Reviews and Accompanied Activities.

30. Determine if district management personnel are reviewing work products and reports for accuracy and completeness.

Adequate ✗ Corrective Action Needed ☐ Comments Below ☐

Determine if District Managers, Assistant District Managers, and supervisors are conducting required mine visits and properly completing the required spreadsheet.

Adequate ✗ Corrective Action Needed ☐ Comments Below ☐

Determine if District Manager is using discretion in granting conferences and monitoring the ACR program to ensure that all decisions (including upholding, modifying or vacating citations) are properly documented and justified by the CLRs.

Adequate ☐ Corrective Action Needed ☐ Comments Below ✗

Not reviewed as a part of this review.
33. Determine if District Manager is holding the Supervisory Special Investigator accountable for properly evaluating and initiating or denying potential cases.

Determine if District Managers and Assistant District Managers are providing acting field office supervisors with the level of oversight necessary to manage their work groups on a temporary basis including an online distance learning training course with a knowledge check for temporarily promoted supervisors. The guidance will be included in each District's SOP for training newly promoted field office supervisors.
