Mine Safety and Health Administration (MSHA) Directives Files. (PEIR)
MSHA directives consist of two manuals (the Program Policy Manual and the Administrative Policy and Procedures Manual), their updates, and related policy letters; procedural handbooks, updates, and related procedure instruction letters; and information bulletins. Directives are numbered and arranged by type and calendar year as follows: an alpha designation for the type of directive (P for program; A for administrative; I for procedure instruction), followed by two digits for the year of issuance, a roman numeral indicating the volume of the administrative or program manual it relates to, and a number indicating its sequence in that calendar year (exception: an information bulletin does not contain a roman numeral as it does not relate to a manual) Program directives provide enforcement-related guidance to MSHA employees and the mining community; administrative directives provide administrative guidance to MSHA employees only. The Records Management Branch in Administration and Management, Management Services Division maintains the record set (signed document and DL 1-441) and formal review copies of all directives. Working papers are retained by the originating office (see No. 13 of this Request). This series includes directives dated July 1988 to present. Prior to July 1988, directives were scheduled under NC1—433—81-1, Item 1, General Correspondence. Directives Record Set. Signed copy of the document and the Official File Copy (DL 1—441) with concurrences.

ASSESSMENT CASE FILES.

Disposition Authority Number

DAA-0433-2015-0004-0008

Files arranged by a case number that is assigned by the office assessing penalties for violations of the Coal Mine Health and Safety Act of 1969 and the Mine Safety and Health Act of 1977. Contains notices, mine operator's protests, petitions for adjudication, correspondence, and related material. The assessment case files also contain copies of notices of violations issued on mine operations, abatements, and termination notices. The original records (notices, abatements, and similar documents) are retained by the issuing office. This material is needed as background, and should be treated as part of the case file with respect to transfer and retention.

4	<p>OFFICE OF STANDARDS, REGULATIONS, AND VARIANCES The Office of Standards, Regulations, and Variances (OSRV) guides all of MSHA's rulemaking activities from the pre-proposal stage to publication of the final rule. OSRV serves as the point of contact with the public and other Federal agencies on regulatory matters. For example, OSRV is the Agency liaison with the Office of the Federal Register and is responsible for coordinating publication of all Federal Register documents and for updating Title 30 of the Code of Federal Regulations. In accordance with the requirements of Executive Order 12866, the Regulatory Flexibility Act, and the Paperwork Reduction Act, OSRV prepares economic impact and cost-benefit analyses of proposed and final standards to determine their effect on businesses; and prepares and updates the Semiannual Regulatory Agenda and the Regulatory Plan which list MSHA's rulemaking projects selected for review or development during the coming year. OSRV also processes petitions from mine operators for variances from safety standards.</p>
