7. ITEM NO.	8. DESCRIPTION OF ITEM (With Inclusive Dates or Retention Periods)	9. SAMPLE OR JOB NO.	10. ACTION TAKEN
	<p>The Office of Surface Mining (OSM) was established in the Department of the Interior by the Surface Mining Control and Reclamation Act of 1977 (P.L. 95-87). The purpose of OSM is to create a nationwide program that protects the environment from the adverse effects of coal mining operations while ensuring an adequate supply of coal to the nation. OSM establishes minimum national standards for regulating the surface effects of coal mining, assists the States in developing and implementing their own regulatory programs, and promotes the reclamation of previously-mined areas. Organizationally, OSM consists of a Headquarters in Washington, D.C., plus five regional offices with district and field offices for each region.</p> <p>The records disposition schedule is Appendix III to a Files Maintenance and Records Disposition Manual which contains procedures for the management and retirement of OSM records, a Subject File Classification System for OSM general correspondence/subject files, and dispositions for all record series. Individual schedule items describe each series of records which exists and several which will be created. For existing series, instructions are given for file cutoff, retirement to FRC (if needed), destruction, or permanent retention in NARS.</p>

7. ITEM NO.	8. DESCRIPTION OF ITEM (With Inclusive Dates or Retention Periods)	9. SAMPLE OR JOB NO.	10. ACTION TAKEN
	<p>The schedule covers records created in all Headquarters directorates and their divisions and branches; in the Office of the Director and related staff offices; and in the regions (regional, district, and field offices).</p> <p>Any record series created subsequent to, or not disposable by, this schedule will be covered by supplementary records disposition authority to be obtained from the National Archives and Records Service (NARS), through submission of additional SF-115's.</p> <p>Records covered by the General Records Schedules (GRS) issued by NARS are disposable (in accordance with the disposition instructions given in the GRS) without further authorization. A copy of the GRS is appended to the records disposition schedule.</p> <p>"GRS" citations <u>IN COLUMN 9</u> of the SF 115A's mean the following:</p> <ol style="list-style-type: none">1. Example 1. "GRS 14/5 (3 months)"--in this case, the retention period of 3 months cited in GRS 14/5 has been waived at OSM request, and another retention is substituted.2. Example 2. "GRS 14/2 (115)"--in this case, GRS 14/2 required the submission of a SF 115 requesting a disposition for the given records. The records disposition schedule item constitutes the required SF 115.3. Example 3. "GRS 3/2b (same)"--in this case, the disposition given in GRS 3/2b is repeated on the SF 115A. <p>NOTE: If the disposition instruction to be followed is found in the GRS, the statement "SEE GRS [item number]" is written below the series description.</p>

700-01	<p><u>Chapter 7. Materials Common to Most Offices</u></p> <p>This chapter covers two types of file materials: (1) general correspondence (subject) files and (2) nonrecord or extra copy files of convenience or reference material.</p> <p>SECTION 1. GENERAL CORRESPONDENCE (SUBJECT) FILES</p> <p>The records described below consist of originals or copies of correspondence, reports, forms, and other materials of a <u>general</u> nature and concerning a wide variety of subjects. These materials are to be arranged according to the Subject File Classification System contained in Appendix II of this manual. (NOTE: Correspondence, reports, forms, and other materials relating to a <u>specific</u> case, project, or transaction are <u>not</u> filed with general correspondence but with specific series listed elsewhere in this manual.)</p> <p><u>OSM Official Central (Subject) Correspondence File.</u> Currently known as the OSM Subject File. Central correspondence file for OSM Headquarters documenting the functions and activities for which OSM has primary responsibility. Contains incoming correspondence and the official file copy of outgoing correspondence signed by the Director, Deputy Director, Assistant Directors, Division Directors, Branch Chiefs, or other OSM staff members. <u>This file is to be arranged according to the Subject File Classification System contained in Appendix II of this manual.</u> (Duplicate copies of this correspondence are maintained in individual Headquarters offices and are covered by subject correspondence items found elsewhere in this schedule.)</p> <p>a. Program Correspondence Files. These portions of the OSM Official Central (Subject) Correspondence File relate directly to the primary functions of OSM and include but are not limited to such subjects as Abandoned Mined Lands; Inspection and Enforcement; Organization, Planning, and Management; Regulatory Program Development; State and Federal Programs; Technical Services and Research; National Cataloging Center for Mining Research; and National Information and Data Center on Surface Coal Mining, Reclamation, and Surface Impacts of Underground Mining.</p> <p>PERMANENT. (ONLY IF arranged by the Subject Classification System contained in Appendix II of this manual. Otherwise disposal is not authorized, nor is retirement to any FRC.) Cut off file annually at close of FY. Transfer to FRC 3 years after cutoff. Offer to NARS 15 years after cutoff. <u>ca. 3 cu ft/yr.</u></p>

700-02	<p>b. Administrative Correspondence Files. These files consist of those portions of the OSM Official Central (Subject) Correspondence File relating to administrative support activities in carrying out OSM's primary functions. They include but are not limited to such subjects as Automated Data Processing; Administrative Services; Budget; Equal Employment Opportunity; Environmental Protection; Financial Management; Grants Management; Information Services and Program Promotion; Legislative and Legal Affairs; Personnel; Procurement and Contracting; Records Management; and Travel and Transportation.</p> <p>Cut off file annually at close of FY. Transfer to FRC 3 years after cutoff. Destroy 15 years after cutoff. (NOTE: The preceding disposition is valid only if the file is converted to the Subject File Classification System contained in Appendix II of this manual. If the file remains arranged chronologically, disposal is not authorized, nor is retirement to any FRC.)</p> <p><u>Regional Central (Subject) Correspondence File.</u> May be maintained by each Regional Office in lieu of its Regional Director's Subject Correspondence File (item 101-01 of this schedule). Arranged by the Subject File Classification System contained in Appendix II of this manual. File documents functions and activities for which the Regional Office has primary responsibility. Consists of incoming and outgoing correspondence of the Regional Director, Regional Division Directors, and other Regional staff members conducted with Regional subordinates, other OSM units, Director and Deputy Director of OSM, Department of Interior, other Federal agencies, and the public.</p> <p>a. Program Correspondence Files. These portions of the Regional Central (Subject) Correspondence File relate directly to the primary functions of OSM Regions and include but are not limited to such subjects as Abandoned Mined Lands; Inspection and Enforcement; Organization, Planning, and Management; Regulatory Program Development; State and Federal Programs; and Technical Services and Research.</p> <p>PERMANENT. (ONLY IF arranged by the Subject File Classification System contained in Appendix II of this manual. If not so arranged, this file is not authorized for disposal, nor is it to be retired to any FRC.) Cut off file annually at close of FY. Transfer to FRC 3 years after cutoff. Offer to NARS 15 years after cutoff. ca. 1 ca ft/yr/region</p>

If not so arranged, this file is not authorized for disposal, nor is it to be retired to any FRC.)</p> <p style="text-align: center;">SECTION 2. NONRECORD MATERIAL</p> <p>This section defines the types of material that are usually considered nonrecord and provides standards for disposing of such material in all OSM offices. Nonrecord materials have no documentary or evidential value usually because they are: (1) duplicate copies of an original maintained by a separate office of primary interest that serves as the official record; (2) printed or processed materials of which only the master copy is considered official, or (3) papers of a transitory nature that cease to have any documentary or evidential value after their contents are incorporated or adequately summarized in other documents (e.g., preliminary drafts, shorthand notes, and work sheets).</p> <p>This type of material accumulates in offices as a convenience to personnel but should be kept to a minimum. Nonrecord material is often found interfiled with official papers, but this files maintenance practice is to be avoided. Retention of nonrecord material is not required. Ideally much of this material should be destroyed <u>without ever having been filed</u>. Keeping nonrecord material out of files reduces volume and makes files more serviceable. If, however, nonrecord material is filed, it should be kept separate from official records.</p>

	<p>The following standards cover nonrecord material normally created or accumulated as a result of responsibilities and activities common to all OSM offices.</p> <p>NOTE: NO MATERIAL IN THIS SECTION SHOULD EVER BE SENT TO A FEDERAL RECORDS CENTER FOR STORAGE.</p>		
701-01	<p><u>Files Maintenance and Disposition Plans.</u> Documents that reflect file categories, disposition instructions, and other information about the files accumulated at an individual file station. These plans are defined on p. 12 of this manual. (NOTE: Records Disposition Files are covered by item 603-14 of this manual.)</p> <p>Destroy upon receipt of a revised plan or discontinuance of the plan.</p>		
701-02	<p><u>Reading or Chronological Files.</u> Extra copies of correspondence prepared and maintained by the originating office solely as a reading or reference file for the convenience of personnel.</p> <p>Cut off at close of FY. Destroy 2 years after cutoff or when reference value has been exhausted, whichever is sooner.</p>		
701-03	<p><u>Suspense Files.</u> Also known as Tickler Files or Followup Files. Papers arranged in chronological order as a reminder that an action is required on a given date; a reply to an action is expected and if not received it should be traced; or a transitory paper being held for reference may be destroyed on a given date. Examples of papers in suspense files are:</p> <p>a. A note or other reminder to submit a report or to take some other action--Destroy after action is taken.</p> <p>b. The file copy, or an extra copy, of an outgoing communication, filed by the date on which a reply is expected--Withdraw papers when reply is received. If suspense copy is an extra copy, destroy it; if it is the file copy, place it in the official file.</p> <p>c. Papers that lose their value in 30 days or less--Destroy on date under which suspended.</p>

701-04	<p><u>Transitory Files.</u> Papers of short-term interest that have no documentary or evidential value and normally need not be retained more than 90 days. Examples include: routine requests for information or publications and copies of replies that require no administrative action, no policy decision, and no special compilation or research for reply; letters of transmittal that do not add any information to that contained in the transmitted material; and quasi-official notices that do not serve as the basis of official action (e.g., notices of holidays or charity and welfare fund appeals, bond campaigns, and similar papers). They exclude items described elsewhere in this schedule.</p> <p>Cut off monthly. Destroy 3 months after cutoff or when no longer needed, whichever is sooner.</p>		
701-05	<p><u>Routine Control Files.</u> Papers used to facilitate or control work in progress, such as job control records, status cards, routing slips, work processing sheets, and records that control work flow and record action taken or serve as receipts for records charged out. Excludes control files listed elsewhere in this manual.</p> <p>Destroy when work is completed or when no longer needed for operating purposes.¹</p>		
701-06	<p><u>Reference Copies of Agency Directives and Publications.</u> Extra copies of local internal and external regulations, directives, and publications and of OSM and DOI manual releases, bulletins, circulars, pamphlets, and public relations material. Arranged as prescribed.</p> <p>Keep copies at the minimum necessary for official reference use. Destroy when superseded, obsolete, or no longer needed for reference.¹</p>		
701-07	<p><u>Publications of Other Government Agencies.</u> Copies of Congressional documents, OMB Circulars, Code of Federal Regulations, Federal Register, GSA publications, and State publications.</p> <p>Destroy when superseded, obsolete, or no longer needed for reference.</p>		
701-08	<p><u>Non-Government Publications.</u> Publications of commercial firms, private institutions, and vendors, including catalogs, brochures, price lists, and similar publications.¹ Arranged as appropriate.</p> <p>Destroy when superseded or obsolete.</p>
