PROGRAM INFORMATION BULLETIN NO. P20-02

FROM: THOMAS W. CHARBONEAU
Director, Office of Assessments
Mine Safety and Health Administration

SUBJECT: Cancellation of Field Review Program Handbook

In accordance with Administration, Department of Labor, and Agency priorities, MSHA is updating all of its handbooks to increase transparency and clarity, and reduce redundancy. These updates will ensure inspectors can easily access the information that will help them keep miners safe and healthy.

As a result, the following document is no longer applicable to Office of Assessments operations and is being cancelled.
